

Safe Swimming Leisure Centre - COVID-19 - Updated 19th July 2021

In order to keep everyone safe when using the Leisure Centre, the following guidelines have been produced. Whilst social distancing restrictions have been lifted, we ask that all users of the pool be considerate to other households using the facilities at the same time.

Swimming Pool Opening Hours

For more information regarding our pool opening hours and our adults only session, please enquire at Reception when you are on site.

Sauna & Jacuzzi Facilities

In accordance with the guidelines, the sauna and jacuzzi are available for you to enjoy. Children under 12 are not permitted to use these facilities.

Swimming Sessions

Use of the pool will not exceed the maximum capacity of 25 at the current time.

To keep everyone safe we will continue to monitor infection rates in and around Cornwall. If we feel it is necessary, we may decide to go back to operating with a booking system which would see the use of the pool restricted. This decision could be made at any time.

All of us at MAENPORTH want everyone to enjoy their stay and use the facilities here on site. We ask that you are mindful of others who could be waiting to use the pool and keep your swim time to a maximum of 1 hour.

We will be continuing our touch point cleans throughout the day and a deep clean of the pool area and changing rooms twice daily. We may need to close the facilities for a maximum of 15 minutes each to allow the team to clean.

Changing Facilities

The changing facilities are open should you wish to use them. It is recommended that you arrive at the pool swim ready and where possible, shower back at your properties.

Thank you for your cooperation, we hope you enjoy your stay at MAENPORTH.
